

EndeavHER

Supporting women in high impact entrepreneurship

Problem

Women Entrepreneurs do not get the same access to capital, mentorship, and networks as men

Problem

The support for women entrepreneurs is disproportionate...

And the community is still nascent for mentorship, peer support...

"I wish I had more entrepreneurial peers. I'm well connected and know people, but I wish for more mentors."

"I need more advice"

"I wish I had a co-founder. We need something like Tinder for co-founders."

And access to capital

"Most VCs are male, they don't understand our business model or the market. The VCs that moved further with us were the ones where women were part of the team."

Solution

EndeavHER will address this gap by tailoring our proven Endeavor process to be more inclusive for women entrepreneurs

How will we execute?

Build a **team** that can execute

Build a strong pool of **women mentors**

Build an **online portal** accessible by all would-be women entrepreneurs

Create **events, programs,** and opportunities to build the community and network
